**Evangelism and Discipleship
Multiplication Training Manual**

Gospel Outreach International

“Reaching the World in this Generation”

How to make the most of this manual:

This manual has been put together to help equip Christians to share the Gospel and train others to do the same. To make the most of this resource please read through each section systematically and apply it to your own life first. Once you have applied each area to your own life you can begin to train others. It is best to start with just a few trainees. By teaching others you are beginning the process of multiplication found in 2 Timothy 2:2. The potential of this is incredible!
